Full Stack Developer/Tech Lead with over 13 years of experience in designing, developing, and implementing innovative software solutions. Skilled in full-stack development, agile methodologies, AWS cloud certified and delivering and creating scalable, high-quality code. Adept at collaborating with cross-functional teams to meet challenging deadlines. Proven expertise in enhancing customer satisfaction and achieving project success across diverse industries.

Work History

2024-11 -
Current

Health and Family

Career Break, Delhi, India

Took time off to prioritise **health and family** while staying engaged with industry trends and technologies.

- Focused on up-skilling in **AI Agent building using crew AI, LangGraph, LangChain, Azure AI Foundry to automate businesses, Micro Frontend architectures, cloud solutions (AWS, Azure, GCP), and CI/CD best practices.**
- Develop an AI-driven service that interacts with multiple data sources and APIs like **OpenAI, Anthropic, and Ollama.**
- Integrated Semantic Kernel to orchestrate the search feature using **RAG and Pine Code.**
- Implemented a **multi-agent deep research workflow** that uses embeddings, vector stores using **LangGraph**, including a reviewer and correction for any topic, and an **AI Chatbot** for parenting.ai (6 weeks POC).
- Actively contributed to **open-source projects and personal development work**, refining technical expertise.
- Now eager to re-enter the workforce, bringing **renewed motivation, strong technical skills, and a problem-solving mindset.**

2023-01 -
2024-10

Senior Full Stack Developer/Tech Lead

Forwood Enterprises India Pvt Ltd, Hyderabad, IN

- Design and Developed Checklist Creation (**Open AI SDK**) using **RAG calls, AI-powered multi-language support, dashboard reports,** and custom libraries, **Angular, Node.js, AWS(**

Typescript

HTML5

CSS3

Node.js

AWS

AI Agents

Crew AI

Punjabi

lambda, EC2, S3, API Gateway, DynamoDB), and Micro Frontend architecture to enhance product capabilities.

- Led frontend performance optimisation initiatives and created an Automated flow, reducing load time by **30%** through lazy loading, caching, and bundle optimisations.
- Integrated **CI/CD pipelines** using Jenkins and AWS, ensuring **automated deployments**.
- Development of **multi-language** support, advanced **dashboards**, and **reusable libraries** using **Angular, RxJs, SSR, AWS, and Micro Front-ends**—enabling **40%** faster feature rollout and supporting **expansion into 5+ new international markets**.
- Designed and implemented a **complete reporting feature using E-Charts, Angular, and AWS services** such as **Lambda, OpenSearch, S3, and CloudFront**, ensuring real-time analytics and data visualisation.
- Worked closely with **UX designers and product teams**, ensuring user-centric design and intuitive interactions.
- Implemented **unit and integration tests using Jest, Jasmine, and Cypress**, improving application reliability and code coverage.
- Mentored and led a team of developers, promoting best practices in **Agile/Scrum methodologies, state management (NgRx), and performance optimisation**.

2012-07 -
2022-12

Mobile Application Developer

IBM India Pvt Ltd, Noida, Uttar Pradesh

- Developed **Mobile applications** using **Java, Angular, Ionic UI, React Native, Cordova** and **GitHub** for version control.
- Created mobile applications for clients, including the **Food Lion Mobile App** and **Hannaford Mobile App**, ensuring seamless cross-platform performance.
- Designed and developed **barcode scanning, chatbot functionality (Google Dialogue-Flow API), and an object detection tool (TensorFlow API), and Google Maps** Integration.

- Led the development of modules for **Lodha Smarter City** and **Surat Municipal Corporation** projects, ensuring optimal performance on both **web and mobile platforms**.
- Collaborated with **Agile teams**, optimising code quality and ensuring project deadlines were met efficiently.
- Conducted **unit and integration testing** using **Jasmine and Karma**, ensuring high application reliability and stability.
- Implemented best practices for frontend performance, reducing application latency and enhancing UX.

2011-01 -
2012-06

Software Developer

Sify Software Ltd, Delhi, IN

- Developed core modules for the Electronic Product Distribution System (EPDS) using Java and PostgreSQL
- Participated in all stages of the software development lifecycle, delivering updates and enhancements aligned with client goals

Education

2004-06 -
2008-04

Bachelor of Technology: Computer Science

Uttar Pradesh Technical University - Lucknow
